#### **Forward-Looking Statements**

This press release may contain "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. In this context, forward-looking statements generally relate to future events or our future financial or operating performance and often contain words such as: "anticipate," "intend," "plan," "goal," "seek," "believe," "project," "estimate," "expect," "future," "likely," "may," "should," "will" and similar words and phrases indicating future results. The information presented in this press release related to our expectations of future performance, including guidance for our revenue and adjusted EBITDA for the full year 2022, statements related to the significance of our strong performance in the first quarter and trend related to organic revenue growth, and other statements that are not purely statements of historical fact, are forward-looking in nature. These forward-looking statements are made on the basis of management's current expectations, assumptions, estimates and projections and are subject to significant risks and uncertainties that could cause actual results to differ materially from those anticipated in such forward-looking statements. We therefore cannot guarantee future results, performance or achievements.

Factors which could cause actual results or effects to differ materially from those reflected in forward-looking statements include, but are not limited to, the risk factors and other cautionary statements described, from time to time, in AvidXchange's filings with the Securities and Exchange Commission ("SEC"), including, without limitation, AvidXchange's Annual Report on Form 10-K and other documents filed with the SEC, which may be obtained on the investor relations section of our website (<a href="https://ir.avidxchange.com/">https://ir.avidxchange.com/</a>) and on the SEC website at <a href="https://www.sec.gov">www.sec.gov</a>. Any forward-looking statements made by us in this press release are based only on information currently available to us and speak only as of the date they are made, and we assume no obligation to update any of these statements in light of new information, future events or otherwise unless required under the federal securities laws

#### **Non-GAAP Measures and Other Performance Metrics**

To supplement the financial measures presented in our press release and related conference call in accordance with generally accepted accounting principles in the United States ("GAAP"), we also present the following non-GAAP measures of financial performance: Non-GAAP Gross Profit, Adjusted EBITDA, and Non-GAAP Net Loss.

A "non-GAAP financial measure" refers to a numerical measure of our historical or future financial performance or financial position that is included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP in our financial statements. We provide certain non-GAAP measures as additional information relating to our operating results as a complement to results provided in accordance with GAAP. The non-GAAP financial information presented herein should be considered in conjunction with, and not as a substitute for or superior to, the financial information presented in accordance with GAAP and should not be considered a measure of liquidity. There are significant limitations associated with the use of non-GAAP financial measures. Further, these measures may differ from the non-GAAP information, even where similarly titled, used by other companies and therefore should not be used to compare our performance to that of other companies.

We have presented Non-GAAP Gross Profit, Adjusted EBITDA, and Non-GAAP Net Loss in this press release. We define Non-GAAP Gross Profit as revenue less cost of revenue excluding the portion of depreciation and amortization and stock-based compensation expense allocated to cost of revenues. We define Adjusted EBITDA as our net loss before depreciation and amortization of property and equipment, amortization of software development costs, amortization of acquired intangible assets, impairment of intangible assets, interest income and expense, income tax expense, stock-based compensation expense, transaction and acquisition-related costs expensed, change in fair value of derivative instrument, non-recurring items not indicative of ongoing operations, and charitable contributions of common stock. We define Non-GAAP Net Loss as net loss before amortization of acquired intangible assets, impairment of intangible assets, stock-based compensation expense, transaction and acquisition-related costs expensed, change in fair value of derivative instrument, non-recurring items not indicative of ongoing operations, provision for income taxes and charitable contributions of common stock.

We believe the use of non-GAAP financial measures, as a supplement to GAAP measures, is useful to investors in that they eliminate items that are either not part of our core operations or do not require a cash outlay, such as stock-based compensation expense. Management uses these non-GAAP financial measures when evaluating operating performance and for internal planning and forecasting purposes. We believe that these non-GAAP financial measures help indicate underlying trends in the business, are important in comparing current results with prior period results, and are useful to investors and financial analysts in assessing operating performance.
