CHARLOTTE, N.C., July 31, 2024 (GLOBE NEWSWIRE) -- AvidXchange Holdings, Inc. (Nasdaq: AVDX), a leading provider of accounts payable (AP) automation software and payment solutions for middle market businesses and their suppliers, today announced financial results for the second quarter ended June 30, 2024.

"We are extremely proud of the many milestones we have achieved in short order since our IPO with GAAP net income profitability being the latest. It is because of the transformational value proposition of our AP automation software and payments we deliver to our middle market buyer customers and their suppliers through our proprietary two-sided network that we are in such a strong financial position. As we continue to navigate macro choppiness with the disciplined execution by our team members, we are leveraging our strong balance sheet to advance our innovation by continuing to broaden the application of artificial intelligence (AI) across our customer and internal-facing opportunity sets, which, we believe, will drive increased value for our customers and further enhance our competitive position. I am particularly excited about the future given our recently launched integration partnerships and suite of innovative products that are on the near horizon, from our new Payment 2.0 Platform to Payment Accelerator 2.0, Spend Management, etc. These products, we believe, will not only further embed our capabilities into adjacent non-invoice back-office workflows and deepen our customer relationships, but also strengthen our competitive position, advance our balanced growth and profitability objectives as well as drive value creation for our investors," said Michael Praeger, Chief Executive Officer & Co-Founder of AvidXchange.

In this context, forward-looking statements generally relate to future events or our future financial or operating performance and often contain words such as: "anticipate," "intend," "plan," "goal," "seek," "believe," "outlook," "project," "estimate," "expect," "future," "likely," "may," "should," "continue," "will" and similar words and phrases indicating future results. The information presented in this press release related to our expectations of future performance, including guidance for our revenue and Adjusted EBITDA for the full year 2024, our ability to counterbalance ongoing and future macroeconomic impacts, our customers' perceptions of the value proposition of our AP automation software and payments services, the role integration partnerships and product innovation will play in embedding our capabilities into adjacent non-invoice back-office workflows, deepening customer relationships, strengthening our competitive positions, advancing growth and returns, and driving value creation for our investors, and other statements that are not purely statements of historical fact, are forward-looking in nature. These forward-looking statements are made on the basis of management's current expectations, assumptions, estimates and projections and are subject to significant risks and uncertainties that could cause actual results to differ materially from those anticipated in such forward-looking statements. We therefore cannot guarantee future results, performance or achievements.

Any forward-looking statements made by us in this press release are based only on information currently available to us and speak only as of the date they are made, and we assume no obligation to update any of these statements in light of new information, future events or otherwise unless required under the federal securities laws

Non-GAAP Measures and Other Performance Metrics

To supplement the financial measures presented in our press release and related conference call in accordance with generally accepted accounting principles in the United States ("GAAP"), we also present the following non-GAAP measures of financial performance: Non-GAAP Gross Profit, Adjusted EBITDA, and Non-GAAP Net Income (Loss).

A "non-GAAP financial measure" refers to a numerical measure of our historical or future financial performance or financial position that is included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP in our financial statements. We provide certain non-GAAP measures as additional information relating to our operating results as a complement to results provided in accordance with GAAP. The non-GAAP financial information presented herein should be considered in conjunction with, and not as a substitute for or superior to, the financial information presented in accordance with GAAP and should not be considered a measure of liquidity. There are significant limitations associated with the use of non-GAAP financial measures. Further, these measures may differ from the non-GAAP information, even where similarly titled, used by other companies and therefore should not be used to compare our performance to that of other companies.

We have presented Non-GAAP Gross Profit, Adjusted EBITDA, and Non-GAAP Net Income (Loss) in this press release. We define Non-GAAP Gross Profit as revenue less cost of revenue excluding the portion of depreciation and amortization and stock-based compensation expense allocated to cost of revenues. We define Adjusted EBITDA as our net loss before depreciation and amortization, impairment and write-off of intangible assets, interest income and expense, income tax expense (benefit), stock-based compensation expense, transaction and acquisition-related costs expensed, change in fair value of derivative instrument, non-recurring items not indicative of ongoing operations, and charitable contributions of common stock. We define Non-GAAP Net Income (Loss) as net loss before amortization of acquired intangible assets, impairment and write-off of intangible assets, stock-based compensation expense, transaction and acquisition-related costs expensed, change in fair value of derivative instrument, non-recurring items not indicative of ongoing operations, acquisition-related effects on income tax, and charitable contributions of common stock. Non-GAAP income tax expense is calculated using our blended statutory rate except in periods of non-GAAP net loss when it is based on our GAAP income tax expense. In each case, non-GAAP income tax expense excludes the effects of acquisitions in the period on tax expense.

We believe the use of non-GAAP financial measures, as a supplement to GAAP measures, is useful to investors in that they eliminate items that are either not part of our core operations or do not require a cash outlay, such as stock-based compensation expense. Management uses these non-GAAP financial measures when evaluating operating performance and for internal planning and forecasting purposes. We believe that these non-GAAP financial measures help indicate underlying trends in the business, are important in comparing current results with prior period results and are useful to investors and financial analysts in assessing operating performance.
