AvidXchange Holdings, Inc. Notes to the Unaudited Consolidated Financial Statements (in thousands, except share and per share data)

1. Formation and Business of the Company

AvidXchange, Inc. was incorporated in the state of Delaware in 2000. In July 2021, the company consummated a reorganization by interposing a holding company between AvidXchange, Inc. and its stockholders. After the reorganization, all of the stockholders of AvidXchange, Inc. became stockholders of AvidXchange Holdings, Inc. and AvidXchange, Inc. became a wholly owned subsidiary of AvidXchange Holdings, Inc. To accomplish the reorganization, the company formed AvidXchange Holdings, Inc., which was incorporated in Delaware on January 27, 2021, and AvidXchange Merger Sub, Inc. ("Merger Sub") as a wholly owned subsidiary of AvidXchange Holdings, Inc. The Company merged AvidXchange, Inc. with and into Merger Sub, with AvidXchange, Inc. as the surviving entity, by issuing identical shares of stock of AvidXchange Holdings, Inc. to the stockholders of AvidXchange, Inc. in exchange for their equity interest in AvidXchange, Inc.

The merger was considered a transaction between entities under common control. Upon the effective date of the reorganization, July 9, 2021, AvidXchange Holdings, Inc. recognized the assets and liabilities of AvidXchange, Inc. at their carrying values within its financial statements.

AvidXchange Holdings, Inc. and its wholly owned subsidiaries are collectively referred to as "AvidXchange" or "the Company" in the accompanying consolidated financial statements after the reorganization.

AvidXchange provides accounts payable ("AP") automation software and payment solutions for middle market businesses and their suppliers. The Company provides solutions and services throughout North America spanning multiple industries including real estate, community association management, construction, financial services (including banks and credit unions), healthcare facilities, social services, education, media, and hospitality.

2. Summary of Significant Accounting Policies

Basis of Consolidation and Presentation

The accompanying unaudited consolidated financial statements include the accounts of the Company and have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and applicable rules and regulations of the Securities and Exchange Commission ("SEC") regarding interim financial reporting. The unaudited consolidated financial statements have been prepared on the same basis as the annual consolidated financial statements and reflect all normal and recurring adjustments that are, in the opinion of management, necessary for a fair statement of the Company's financial position, results of operations, changes in stockholders' equity, and cash flows for the periods presented. The results of operations for the three and six months ended June 30, 2024 are not necessarily indicative of the results to be expected for the year ending December 31, 2024 or for any other future annual or interim period. The unaudited consolidated balance sheet as of December 31, 2023 included herein was derived from the audited financial statements as of that date, but does not include all disclosures including certain notes required by U.S. GAAP on an annual reporting basis. All significant intercompany accounts and transactions have been eliminated. There are no items of comprehensive income.

These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements of the Company for the year ended December 31, 2023.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities as of and during the reporting period. The Company bases estimates and assumptions on historical experience when available and on various factors that it believes to be reasonable under the circumstances. Significant estimates reflected in these unaudited consolidated financial statements include, but are not limited to, the allowance for credit losses and returns, useful lives assigned to fixed and intangible assets, capitalization of internal-use software, deferral of customer origination costs, the fair value of intangible assets acquired in a business combination, the fair value of goodwill, and the recoverability of deferred income taxes. The Company assesses estimates on an ongoing basis; however, actual results could materially differ from those estimates.

Concentrations

Significant Services

A substantial portion of the Company's revenue is derived from interchange fees earned on payment transactions processed as virtual commercial cards ("VCC"). The Company utilizes service providers to process these transactions. Revenue from one service provider represented 27% and 20% of total revenue for the three months ended June 30, 2024 and 2023, respectively, and 20% of total revenue in each of the six months ended June 30, 2024 and 2023. Accounts receivable from this service provider represented 29% and 12% of accounts receivable, net as of June 30, 2024 and December 31, 2023, respectively. Revenue from a

(in thousands, except share and per share data)

second provider represented 19% and 27% of total revenue for the three months ended June 30, 2024 and 2023, respectively, and 26% and 27% of total revenue for the six months ended June 30, 2024 and 2023, respectively. Accounts receivable from this second service provider represented 19% and 38% of accounts receivable, net as of June 30, 2024 and December 31, 2023, respectively.

Future regulation or changes by the card brand payment networks could have a substantial impact on interchange rates and the Company's revenue from VCC transactions. If interchange rates decline, whether due to actions by the card brand payment networks or future regulation, or if merchant/suppliers elect to receive payments that result in lower or no interchange revenue such as check or apply fees in consideration of accepting electronic forms of payment, the Company's total operating revenues, operating results, prospects for future growth and overall business could be materially affected. The Company's revenue from VCC transactions is also impacted by fees charged by service providers to process our VCC transactions.

Restructuring costs

During the fourth quarter of 2023, the Company initiated a restructuring plan to generate cost savings and improve effectiveness of the organization which resulted in a reduction in the Company's U.S. workforce. The plan was implemented in the fourth quarter of 2023 and completed in the second quarter of 2024. There were no restructuring costs recorded in the three months ended June 30, 2024. The Company recorded restructuring costs of \$1,157 in the six months ended June 30, 2024, and \$3,037 cumulatively, from one-time severance charges in connection with this plan. Restructuring costs are included in general and administrative expenses in the consolidated statements of operations.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less at the time of purchase that are not recorded as marketable securities to be cash equivalents. The carrying values of cash and cash equivalents approximate their fair values due to the short-term nature of these instruments. Cash in the Company's bank accounts may exceed federally insured limits.

Marketable Securities

Marketable securities consist of short-term investments in short-term commercial paper, certificates of deposits and various U.S. government backed securities. To reflect its intention, the Company classifies its marketable securities as held-to-maturity at the time of purchase. As a result, the marketable securities are recorded at amortized cost and any gains or losses realized upon maturity are reported in other income (expense) in the consolidated statements of operations.

Accounts Receivable, Supplier Advances and Allowance for Credit Losses

Accounts receivable represent amounts due from the Company's VCC service providers for interchange fees earned and from buyer customers who have been invoiced for the use of the Company's software offerings, but for whom payments have not been received. Accounts receivable from VCC service providers are presented net of an allowance for returns for transactions subsequently canceled that do not ultimately settle through the payment network. Accounts receivable from buyer customers are presented net of allowances for credit losses and returns. The Company estimates expected credit losses related to accounts receivable balances based on a review of available and relevant information including current economic conditions, projected economic conditions, historical loss experience, account aging, and other factors that could affect collectability. Expected credit losses are determined individually or collectively depending on whether the accounts receivable balances share similar risk characteristics. The allowance for returns for VCC transactions subsequently canceled are assessed at each period end and recognized as a reduction of revenue. The allowances for buyer customer's credit losses and returns are assessed at each period end and are recognized as bad debt expense within general and administrative expenses in the consolidated statements of operations and as a reduction of revenue, respectively. A buyer customer receivable is written off against the allowance when it is determined that all collection efforts have been exhausted and the potential for recovery is considered remote. Historically, losses related to customer nonpayment have been immaterial and most of the accounts receivable balances have been current.

Supplier advances receivable represent amounts that have been advanced as part of the AvidXchange's Payment Accelerator product but have not been collected. Advances are collected from the buyer customer once the buyer initiates the transfer of funds for the invoice that was previously advanced. If the buyer does not transfer the funds as expected, the Company is exposed to losses. The Company's experience with such delinquencies by buyer customers has been immaterial. Supplier advances receivable are stated net of expected credit losses. The Company estimates expected credit losses related to supplier advances receivable balances based on a review of available and relevant information including current economic conditions, projected economic conditions, historical loss experience, account aging, and other factors that could affect collectability. Expected credit losses are determined individually or collectively depending on whether the accounts receivable balances share similar risk characteristics. The allowance for credit losses for supplier advances is assessed at period end and the measurement of the allowance is included as a component of cost of revenues in the Company's consolidated statements of operations. Supplier

(in thousands, except share and per share data)

advances receivable balances are charged against the allowance when the Company determines it is probable the receivable will not be recovered after collection efforts and legal actions have been exhausted. The Company classifies the fees charged to supplier customers as cash flows from operating activities with the remaining accelerated advancements and recoupments classified as cash flows from investing activities on a net basis within the consolidated statements of cash flows.

Restricted Funds Held for Customers and Payment Service Obligations

Restricted funds held for customers and the corresponding liability of payment service obligations represent funds that are collected from customers for payments to their suppliers. The Company determines the balances of restricted funds held for customers, and the corresponding payment services obligations, by reconciling cash held by financial institutions and the corresponding payments in transit at the end of each period. The balance of these obligations may fluctuate from period to period depending on the timing of the period end and the timing of when outstanding payments clear with financial institutions. The Company is registered as a money services business with the Financial Crimes Enforcement Network. Payment service obligations are comprised of outstanding daily transaction liabilities per state regulatory average daily transaction liability report requirements and other unregulated settlements with payees, which do not constitute a regulatory liability event under reporting requirements.

Other unregulated settlements		17,963	_	10,376
Total payment service obligations	\$	1,193,455	\$	1,578,656

The Company historically transmitted buyer customer funds using a legacy model pursuant to which buyer customer funds were held in trust accounts that were maintained and operated by a trustee pending distribution to suppliers in accordance with instructions provided through the Company's platform. The Company is not the trustee or beneficiary of the trusts which hold these buyer deposits; accordingly, the Company does not record these assets and offsetting liabilities on its consolidated balance sheets. The Company has largely phased out this model although certain banks that resell its products and services continue to leverage a similar structure. The Company contractually earns interest on funds held for certain buyers. The amount of Company and bank customer funds held in all trust-related and similar accounts was approximately \$12,461 and \$6,269 as of June 30, 2024 and December 31, 2023, respectively.

The Company has transitioned most payment transmission activity to the money transmitter license model and obtained a money transmitter license in all states which require licensure. This model enables AvidXchange to provide commercial payment services to businesses through its "for the benefit of customer" bank accounts, also known as FBO, that are restricted for such purposes. The restricted funds held for customers are restricted for the purpose of satisfying the customer's supplier obligations and are not available for general business use by the Company. The Company maintains these funds in liquid cash accounts and contractually earns interest on these funds held for customers. These funds are recognized as a restricted cash asset and a corresponding liability is recorded for payments due to their suppliers on the Company's consolidated balance sheets. Restricted funds held for customers are included in the cash and cash equivalents on the consolidated statements of cash flows.

Stock-Based Compensation

Compensation cost for stock-based awards issued to employees and outside directors, including stock options and restricted stock units ("RSUs"), is measured at fair value on the date of grant.

The fair value of stock options is estimated using a Black-Scholes option-pricing model, while the fair value of RSUs is determined using the fair value of the Company's underlying common stock. Stock-based compensation expense is recognized on a straight-line basis over the requisite service period of the award. Stock-based compensation expense for RSUs with performance conditions is recognized over the requisite service period on an accelerated-basis as long as the performance condition in the form of a specified liquidity event is probable to occur. In the case of equity issued in lieu of cash bonus, expense is recognized in the period the cash bonus was earned.

Nonqualified Deferred Compensation Plan

The Company adopted a nonqualified, deferred compensation plan effective October 1, 2015, which is an unfunded plan created for the benefit of a select group of management or highly compensated employees. The purpose of the plan is to attract and retain key employees by providing them with an opportunity to defer receipt of a portion of their compensation. It is exempt from the participation, vesting, funding, and fiduciary requirements set forth in Title I of the Employee Retirement Income Security Act of 1974, as amended. Deferred amounts are not subject to forfeiture and are deemed invested among investment funds offered under the nonqualified deferred compensation plan, as directed by each participant.

(in thousands, except share and per share data)

The Company has established a 'rabbi trust' that serves as an investment to shadow the deferred compensation plan liability. The assets of the rabbi trust primarily consist of trust-owned life insurance policies which are recorded at cash surrender value and are included in other noncurrent assets. The change in cash surrender value of the life insurance policies in the rabbi trust is recorded in other income (expense) on the Company's unaudited consolidated statements of operations. The assets of the rabbi trust are general assets of the Company and as such, would be subject to the claims of creditors in the event of bankruptcy or insolvency. The related deferred compensation liabilities are included in other line.

The Company has recorded these assets and liabilities at their fair value. In association with this plan, \$2,688 and \$1,866 were included in other noncurrent assets and \$2,291 and \$2,398 were included in noncurrent liabilities as of June 30, 2024 and December 31, 2023, respectively, on the Company's unaudited consolidated balance sheets.

Contingent Liabilities

Contingent liabilities require significant judgment in estimating potential losses for legal claims. The Company reviews significant new claims and litigation for the probability of an adverse outcome. Estimates are recorded as liabilities when it is probable that a liability has been incurred and the amount of the loss is reasonably estimable. Disclosure is required when there is a reasonable possibility that the ultimate loss will materially exceed the recorded provision. Contingent liabilities are often resolved over long periods of time. Estimating probable losses requires analysis of multiple forecasts that often depend on judgments about potential actions by third parties such as regulators, and the estimated loss can change materially as individual claims develop.

New Accounting Pronouncements

Recently Adopted Accounting Standards

In March 2023, the FASB issued ASU No. 2023-01, *Leases (Topic 842): Common Control Arrangements*. The amendments in this update that apply to public business entities clarify the accounting for leasehold improvements associated with common control leases. The adoption of this guidance on January 1, 2024 did not have an impact on the Company's consolidated financial statements.

Accounting Pronouncements Issued but Not Yet Adopted

In December 2023, the FASB issued ASU 2023-09, *Improvements to Income Tax Disclosures*, which requires significant additional disclosures about income taxes, primarily focused on the disclosure of income taxes paid and the rate reconciliation table. The new guidance will be applied prospectively (with retrospective application permitted) and is effective for calendar year-end public business entities in the 2025 annual period and in 2026 for interim periods, with early adoption permitted. The Company is assessing the impact of this guidance on its financial statements.

3. Revenue from Contracts with Customers

Disaggregation of Revenue

The table below presents the Company's revenues disaggregated by type of services performed.

	Th	ree Months	d June 30,	Six Months Ended June 30,						
		2024		2024		2023		2024		2023
Software revenue	\$	29,914	\$	27,248	\$	59,602	\$	54,216		
Payment revenue		74,183		63,228		149,385		122,409		
Services revenue		1,035		678		1,743		1,351		
Total revenues	\$	105,132	\$	91,154	\$	210,730	\$	177,976		

Contract Assets and Liabilities

The Company's rights to payments are not conditional on any factors other than the passage of time, and as such, the Company does not have any contract assets. Contract liabilities consist primarily of advance cash receipts for services (deferred revenue) and are recognized as revenue when the services are provided.

The table below presents information on accounts receivable and contract liabilities.

	As of	June 30, 2024	 December 1, 2023
Trade accounts receivable, net	\$	19,953	\$ 16,261
Payment processing receivable, net		30,133	30,428
Accounts receivable, net	\$	50,086	\$ 46,689
Contract liabilities	\$	24,858	\$ 27,593

AvidXchange Holdings, Inc. Notes to the Unaudited Consolidated Financial Statements (in thousands, except share and per share data)

Significant changes in the contract liabilities balance are as follows:

	Three Months Ended June 30,					Six Months Ended June 30,			
	2024		2023		2024		2023		
Revenue recognized included in beginning of period balance	\$	(3,018)	\$	(3,523)	\$	(6,409)	\$	(6,014)	
Cash received, excluding amounts recognized as revenue during the									
period		1,614		3,830		3,674		6,059	

The tables below present a summary of changes in the Company's allowances for credit losses and returns for the six months ended June 30, 2024 and 2023:

		Accounts I	Receiva	ble		
		vance for it Losses		wance for Returns	Ad Re	upplier vances ceivable owance

\$	1,330 (233) 	1,330 (233) 	1,330 225 (233) - (93)	\$ 1,539 \$ 1,584 \$ 1,330 225 (233) - - - - (93)

Transaction Price Allocated to Remaining Performance Obligations

Transaction price allocated to the remaining performance obligations represents contracted revenue that has not yet been recognized. These revenues are subject to future economic risks including customer cancellations, bankruptcies, regulatory changes and other market factors.

The Company applies the practical expedient in ASC Topic 606, *Revenue from Contracts with Customers* ("Topic 606"), paragraph 606-10-50-14(b) and does not disclose information about remaining performance obligations related to transaction and processing services that qualify for recognition in accordance with paragraph 606-10-55-18 of Topic 606. These contracts contain variable consideration for standready performance obligations for which the exact quantity and mix of transactions to be processed are contingent upon buyer or supplier request. These contracts also contain fixed fees and non-refundable upfront fees; however, these amounts are not considered material to total consolidated revenue.

The Company's remaining performance obligation consists of contracts with financial institutions who are using the ASCEND solution. These contracts generally have a duration of two to five years and contain fixed maintenance fees that are considered fixed price guarantees. Remaining performance obligation consisted of the following:

	Cur	Current Noncurrent			 Total
As of June 30, 2024	\$	14,895	\$	20,246	\$ 35,141
As of December 31, 2023		15,031		20,403	35,434

Contract Costs

The Company incurs incremental costs to obtain a contract, as well as costs to fulfill a contract with buyer customers that are expected to be recovered. These costs consist primarily of sales commissions incurred if a contract is obtained, and customer implementation related costs.

(in thousands, except share and per share data)

The Company utilizes a portfolio approach when estimating the amortization of contract acquisition and fulfillment costs. These costs are amortized on a straight-line basis over the expected benefit period of generally five years, which was determined by taking into consideration customer attrition rates, estimated terms of customer relationships, useful lives of technology, industry peers, and other factors. The amortization of contract fulfillment costs associated with implementation activities are recorded as cost of revenues in the Company's consolidated statements of operations. The amortization of contract acquisition costs associated with sales commissions that qualify for capitalization is recorded as sales and marketing expense in the Company's consolidated statements of operations. Costs to obtain or fulfill a contract are classified as deferred customer origination costs in the Company's consolidated balance sheets.

The following tables present information about deferred contract costs:

	Three Months Ended June 30,			Six Months Ended Ju			June 30,	
		2024		2023		2024		2023
Capitalized sales commissions and implementation costs	\$	3,827	\$	2,539	\$	6,480	\$	5,377
Amortization of deferred contract costs								
Costs to obtain contracts included in sales and marketing expense	\$	1,692	\$	1,465	\$	3,243	\$	2,939
Costs to fulfill contracts included in cost of revenue	\$	1,546	\$	1,585		3,095		3,154

4. Income (Loss) Per Common Share

The following common share equivalent securities have been excluded from the calculation of weighted average common shares outstanding because the effect is anti-dilutive for the periods presented:

	Three Months En	ided June 30,	Six Months En	ided June 30,	
Anti-Dilutive Common Share Equivalents	2024	2023	2024	2023	
Stock options	158,920	8,398,693	7,556,543	8,398,693	
Restricted stock units	102,523	10,846,847	10,986,075	10,846,847	
Employee stock purchase plan	3,988	52,980	60,450	52,980	
Total anti-dilutive common share equivalents	265,431	19,298,520	18,603,068	19,298,520	

Basic and diluted net income (loss) per common share is calculated as follows:

	Th	Three Months Ended June 30,				Six Months Er	d June 30,	
		2024	2023			2024		2023
Numerator:								
Net income (loss)	\$	436	\$	(18,771)	\$	(573)	\$	(34,761)
Net income (loss) attributable to common stockholders	\$	436	\$	(18,771)	\$	(573)	\$	(34,761)
Denominator:								
Weighted-average common shares outstanding, basic	20	07,025,967		201,559,007		205,961,720		200,734,555

Weighted-average common shares outstanding, diluted	2	10,370,559		201,559,007		205,961,720		200,734,555
Net income (loss) per common share, basic	\$	0.00	\$	(0.09)	\$	0.00	\$	(0.17)
Net income (loss) per common share, diluted	\$	0.00	\$	(0.09)	\$	0.00	\$	(0.17)

5. Fair Value Measurements

The Company's financial instruments consist of cash and cash equivalents, marketable securities, trade and supplier advances receivables, assets of the rabbi trust, AP, deferred compensation liabilities, and debt. The carrying amount of cash, trade and supplier advances receivables, and AP approximate fair value due to the short-term maturity. The estimated fair value of long-term debt is based on borrowing rates currently available to the Company for similar debt issues. The fair value approximates the carrying value of long-term debt.

In accordance with applicable accounting standards, the Company utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels.

The following is a brief description of those three levels:

AvidXchange Holdings, Inc.

Notes to the Unaudited Consolidated Financial Statements

(in thousands, except share and per share data)

- Level 1 Observable inputs such as quoted market prices in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- Level 3 Unobservable inputs that reflect the reporting entity's own assumptions. The fair value for such assets and liabilities is generally determined using pricing models, discounted cash flow methodologies, or similar techniques that incorporate the assumptions a market participant would use in pricing the asset or liability.

When more than one level of input is used to determine the fair value, the financial instrument is classified as Level 1, 2 or 3 according to the lowest level input that has a significant impact on the fair value measurement. The Company performs a review of the fair value hierarchy classification on an annual basis. Changes in the observability of valuation inputs may result in a reclassification of certain financial assets or financial liabilities within the fair value hierarchy.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The Company evaluates its financial assets and liabilities subject to fair value measurements on a recurring basis to determine the appropriate level to classify them for each reporting period. This determination requires significant judgment.

The following tables present information about the Company's assets and liabilities that are measured at fair value on a recurring basis using the above categories, as of the periods presented.

	As of June 30, 2024							
Description		Level 1	L	evel 2	Lev	/el 3		Total
Cash equivalents								
Money market mutual funds ⁽¹⁾	\$	59,516	\$	-	\$	-	\$	59,516
Rabbi trust-owned life insurance policies (at cash surrender value) ⁽²⁾		-		2,688		-		2,688
Total assets	\$	59,516	\$	2,688	\$	_	\$	62,204
Other long term lighilities								
Other long-term liabilities								
Deferred compensation	\$	-	\$	2,291	\$	-		2,291
Total liabilities	\$	-	\$	2,291	\$		\$	2,291

	As of December 31, 2023							
Description	Level 1	Level 2	Level 3	Total				
Cash equivalents								
Money market mutual funds ⁽¹⁾	\$ 226,715	\$-	\$-	\$ 226,715				
Rabbi trust-owned life insurance policies (at cash surrender value) ⁽²⁾	-	1,866	-	1,866				
Total assets	\$ 226,715	\$ 1,866	\$-	\$ 228,581				
Other long-term liabilities								
Deferred compensation	\$-	\$ 2,398	\$-	2,398				
Total liabilities	\$ -	\$ 2,398	\$-	\$ 2,398				

(1) Money market funds are classified as cash equivalents in the Company's unaudited consolidated balance sheets. As short-term, highly liquid investments readily convertible to known amounts of cash with remaining maturities of three months or less at the time of purchase, the Company's cash equivalent money market funds have carrying values that approximate fair value.

(2) Fair value of insurance policies represents their cash surrender value based on the underlying investments in the account which is determined based on quoted prices for identical or similar financial instruments in active markets.

6. Marketable Securities

Marketable securities consist of commercial paper, certificates of deposit, and U.S. Treasury and agency debt, and are classified as held-tomaturity. Investments held in marketable securities had contractual maturities of less than nine months as of June 30, 2024. As the Company invests in short-term and high credit quality marketable securities, the Company expects to receive fixed

AvidXchange Holdings, Inc. Notes to the Unaudited Consolidated Financial Statements (in thousands, except share and per share data)

par value without any loss of principle at the maturity of each security. Therefore, an allowance for expected credit losses is not recognized as of June 30, 2024 and December 31, 2023. The following presents information about the Company's marketable securities:

			As of June	e 30, 2024		
Sector	Amortized Cost	Allowance for Credit Losses	Net Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Financial	\$ 67,444	\$-	\$ 67,444	\$-	\$ (48)	\$ 67,396
Industrial	22,410	-	22,410	-	(26)	22,384
Total	\$ 89,854	\$-	\$ 89,854	\$-	\$ (74)	\$ 89,780

		As of December 31, 2023									
Sector	Amortized Cost	Allowance for Credit Losses	Net Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value					
Financial	\$ 44,645	\$ -	\$ 44,645	\$-	\$ (14)	\$ 44,631					
Total	\$ 44,645	\$-	\$ 44,645	\$-	\$ (14)	\$ 44,631					

The fair value of marketable securities in the Government major security type is classified as a Level 1 in the Company's fair value hierarchy described in Note 5. The fair values of the remaining major security types are classified as Level 2.

The following table presents information about the Company's investments that were in an unrealized loss position and for which an otherthan-temporary impairment has not been recognized in earnings:

		As of	December 31,
	As of June 30, 2024		2023
Aggregate fair value of investments with unrealized losses ⁽¹⁾	78,419	\$	33,578
Aggregate amount of unrealized losses	(74)		(14)

(1) Investments have been in a continuous loss position for less than 12 months

7. Intangible Assets and Goodwill

Intangible Assets

The following table presents information about capitalized software development costs:

	Three Months Ended June 30,			Si	June 30,			
Capitalized software development costs		2024		2023		2024		2023

Total principal due		76,463		77,275
Current portion of term loan and promissory notes		(6,425)		(6,425)
Unamortized portion of debt issuance costs		(954)		(1,090)
Long-term debt	\$	69,084	\$	69,760

On December 29, 2022 the Company, through its wholly-owned subsidiary, AvidXchange, Inc., entered into a credit agreement (as subsequently amended, the "2022 Credit Agreement") with KeyBank National Association ("KeyBank") to replace in its entirety its previous senior secured credit facility. The outstanding balances of the previous senior secured credit facility were repaid with the Company's cash balances and the proceeds from borrowing under the 2022 Credit Agreement. The 2022 Credit Agreement has a term of five years and consists of a 5-year revolving credit facility (the "2022 Revolver") and a five-year term loan facility (the "2022 Term Loan").

Under the 2022 Credit Agreement and subject to specific conditions, the Company may request, and the lenders have the right, but not the obligation, to increase the 2022 Revolver or add an additional term loan facility by an aggregate amount (for all such increases) not to exceed \$50,000 as of June 30, 2024.

The 2022 Credit Agreement has a term of five years and makes available to the Company facilities in an aggregate amount of \$95,000 and consists of:

- \$30,000 pursuant to the 2022 Revolver; and
- \$65,000 pursuant to the 2022 Term Loan.

Letters of credit may be issued by KeyBank pursuant to the 2022 Credit Agreement and the availability under the 2022 Revolver will be reduced by any outstanding letters of credit. As June 30, 2024, no letters of credit were outstanding.

As of June 30, 2024, the aggregate amount available to borrow under the 2022 Credit Agreement was \$30,000. As of June 30, 2024, the effective interest rate of the 2022 Term Loan was 8.23%.

Proceeds from the 2022 Term Loan and corporate cash were used to pay in full all outstanding debt and expenses under the previous senior secured credit facility, and the 2022 Revolver may be used to fund working capital and for general corporate purposes.

The maturity date for the 2022 Revolver and 2022 Term Loan is December 29, 2027. The Company may voluntarily pre-pay all or any part of the 2022 Revolver or 2022 Term Loan without premium or penalty, subject to concurrent payments of accrued and unpaid interest and any applicable breakage costs.

Interest on the loans under the 2022 Credit Agreement is equal to the daily simple secured overnight financing rate ("SOFR"), term SOFR or a base rate, plus an applicable margin. The applicable margin is between 2.5% and 3.0% for daily simple SOFR and term SOFR loans (plus a SOFR adjustment between 0.1% and 0.25%), and between 1.5% and 2.0% for base rate loans. The applicable margin fluctuates based on the ratio of debt under the 2022 Credit Agreement to the Company's consolidated software revenue. The Company may elect one-, three- or six-month interest periods in connection with term SOFR. The base rate is equal to the higher of KeyBank's prime rate, the federal funds effective rate plus 0.5%, or one-month term SOFR plus 1.0%. For purposes of the 2022 Credit Agreement, daily simple SOFR, term SOFR and the base rate will never be less than 0.5%.

The principal amount of the 2022 Term Loan amortizes at a rate of 2.5% per year for the first two years and 5% per year for the last three years, payable in equal quarterly installments. Additional principal payments are due in certain circumstances, and subject to certain limitations, including upon a sale of assets or upon receipt of proceeds of casualty insurance or condemnation.

The 2022 Credit Agreement contains certain customary representations and warranties and affirmative and negative covenants. The affirmative covenants require the Company to provide the lenders with certain financial statements, budgets, compliance certificates and other documents and reports and to comply with certain laws. The negative covenants restrict the Company's ability to incur additional indebtedness, create additional liens on its assets, make certain investments, dispose of its assets or engage in a merger or other similar transaction or engage in transactions with affiliates, which are subject, in each case, to the

AvidXchange Holdings, Inc. Notes to the Unaudited Consolidated Financial Statements (in thousands, except share and per share data)

various exceptions and conditions described in the 2022 Credit Agreement. The negative covenants further restrict the Company's ability to make certain restricted payments, including the payment of dividends in certain limited circumstances.

The 2022 Credit Agreement also contains three financial covenants, measured on a consolidated basis. First, there must be liquidity (which is defined as availability under the 2022 Revolver, plus unrestricted cash) that is more than the greater of (1) \$35,000, and (2) 35% of the Total Commitment Amount (as defined in the 2022 Credit Agreement). Second, as of the end of each quarter, total revenue on a trailing fourquarter basis must be greater than the requirements set forth in the 2022 Credit Agreement. Third, for each period of four consecutive quarters ending on December 31, 2024, and at the end of each fiscal quarter thereafter, Consolidated EBITDA (as defined in the 2022 Credit Agreement) must not be less than \$10,000. The Company was in compliance with its financial debt covenants as of June 30, 2024.

The 2022 Credit Agreement also includes certain customary events of default. If an event of default occurs and is continuing, the lenders are entitled to take various actions, including the acceleration of the maturity of all loans and to take all actions permitted to be taken by a secured creditor with respect to the collateral for the 2022 Credit Agreement and under applicable law.

The obligations under the 2022 Credit Agreement are secured by:

- substantially all of the tangible and intangible assets of the Company and its material subsidiaries, except for client funds, client funds accounts (as such terms are defined in the 2022 Credit Agreement) and existing real estate, and
- the capital stock of the Company's material subsidiaries.

Under the 2022 Credit Agreement, the Company's wholly-owned subsidiaries, AvidXchange, Inc. and AFV Commerce, Inc., are the only borrowers, and AvidXchange, Inc.'s parent holding company and certain subsidiaries of AvidXchange, Inc. and AFV Commerce, Inc. are coguarantors.

Revolving Credit Facility

There was no balance outstanding under the 2022 Revolver as of June 30, 2024 or December 31, 2023. The Company is required to pay on a quarterly basis a commitment fee of 0.3% per annum with respect to the amount of the 2022 Revolver.

Deferred Financing Costs

The Company has \$528 and \$604 in deferred financing costs included in other noncurrent assets and deposits, and \$954 and \$1,090 of deferred financing costs associated with its term loans recorded net of long-term debt as of June 30, 2024 and December 31, 2023, respectively.

Amortization of deferred financing costs was \$106 and \$110 for the three months ended June 30, 2024 and 2023, respectively, and \$212 and \$220 for the six months ended June 30, 2024 and 2023, respectively, which is presented in the consolidated statements of operations as interest expense.

Land Promissory Notes

The Company has two promissory notes executed in connection with the purchase of land parcels and improvements adjacent to its Charlotte, North Carolina headquarters campus. The aggregate outstanding principal amount was \$13,900 as of June 30, 2024 and will be paid in two remaining equal annual payments of \$4,800 and a final annual payment of \$4,300, plus accrued interest at 6.75%.

10. Stockholders' Equity

The holders of common stock are entitled to one vote for each share.

Authorized Shares

The Company is authorized to issue 1,600,000,000 shares of common stock, \$0.001 par value per share, and 50,000,000 shares of preferred stock, \$0.001 par value per share.

Common Stock

At June 30, 2024, the Company had reserved a total of 53,213,576 of its 1,600,000,000 shares of common stock for future issuance as follows:

	As of June 30, 2024
Outstanding stock options	7,556,543
Restricted stock units	10,986,075
Available for future issuance under stock award plans	26,722,129
Available for future issuance under employee stock purchase plan	7,948,829
Total common shares reserved for future issuance	53,213,576

11. Stock-Based Compensation

Stock Plans

The Company maintains its 2021 Long-Term Incentive Plan ("2021 Plan") under which it grants stock awards to its employees, directors and non-employee third parties. On January 1, 2024, the number of shares of common stock available to issue under the 2021 Plan automatically increased by 10,204,201 shares. As of June 30, 2024, the Company had 26,722,129 shares allocated to the 2021 Plan, but not yet issued or granted as an award.

The Company also maintains its 2021 Employee Stock Purchase Plan ("ESPP"), under which eligible employees may purchase the Company's common stock through accumulated payroll deductions. On January 1, 2024, the number of shares of common stock reserved for issuance under the ESPP automatically increased by 2,040,840. As of June 30, 2024, the number of shares of common stock reserved for issuance under the ESPP was 7,948,829.

Stock Options

Stock options granted under the Company's current and prior equity incentive plans have various vesting periods ranging from fully-vested on the date of grant to vesting over a period of three or four years. The term for each incentive stock option under these plans is ten years from the grant date, or five years for a grant to a ten percent owner optionee, in each case assuming continued employment. The fair value of options granted is estimated on the date of grant using the Black-Scholes option-pricing model.

Stock option activity for the six months ended June 30, 2024 was as follows:

		Stock Options									
	Number of Stock Options Outstanding	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life		igregate nsic Value						
Balance as of December 31, 2023	8,175,088	\$ 8.64	7.22	\$	31,135						
Granted	346,935	12.34									
Exercised	(802,043)	6.73									
Cancelled	(162,911)	9.20									
Expired	(526)	0.26									
Balance as of June 30, 2024	7,556,543	\$ 9.00	6.98	\$	23,816						
Vested and exercisable	4,953,507	\$ 8.71	6.35	\$	17,061						

As of June 30, 2024, the total unamortized stock-based compensation expense related to the unvested stock options was \$10,418, which the Company expects to amortize over a weighted average period of 2.2 years.

Restricted Stock Units

RSUs have a vesting period generally of one to four years. Any unvested RSUs are forfeited upon termination of employment. The grant date value of RSUs is equal to the closing price of the Company's stock on the date of grant, or, if not a trading day, the closing price of the previous trading day.

RSUs granted prior to the Company's IPO have a term of seven years, or three years for time vested RSUs after termination of employment and were also subject to a performance condition upon a predefined liquidity event such as an IPO or a change in control. The performance condition was satisfied upon completion of the Company's IPO. Prior to the IPO, RSUs were valued at the estimated value of a share of common stock at the date of grant.

(in thousands, except share and per share data)

RSU activity for the six months ended June 30, 2024 was as follows:

	Restricted S	I Stock Units				
	Number of Restricted Stock Units Outstanding		hted Average nt Date Fair Value			
Balance as of December 31, 2023	8,919,024	\$	8.98			
Granted	5,309,713		12.22			
Released	(2,766,480)		9.17			
Cancelled	(476,182)		9.62			
Balance as of June 30, 2024	10,986,075	\$	10.48			

As of June 30, 2024, the total unamortized stock-based compensation expense related to the unvested RSUs was \$104,338, which the Company will amortize over a weighted average period of 3.0 years.

Stock-Based Compensation Expense

Stock-based compensation expense from stock options and RSUs, reduced for actual forfeitures, was included in the following line items in the accompanying consolidated statement of operations:

	Three Months Ended June 30,					Six Months Ended June 30				
	2024		2024		2023		2023 2024			2023
Cost of revenues	\$	1,587	\$	1,311	\$	2,784	\$	2,328		
Sales and marketing		1,453		1,400		2,551		2,535		
Research and development		2,924		2,980		6,582		5,199		
General and administrative		6,153		5,178		10,966		9,468		
Total	\$	12,117	\$	10,869	\$	22,883	\$	19,530		

Employee Stock Purchase Plan

Stock-based compensation expense for the ESPP is based on the estimated fair value of the option to purchase shares at a discount and uses grant date inputs including the purchase discount, expected contributions and stock price. Total ESPP expense recorded in the Company's consolidated statements of operations was as follows:

	Thr	Three Months Ended June 30,				Six Months Ended June 30			
		2024		2023		2024		2023	
ESPP expense	\$	202	\$	152	\$	395	\$	422	

12. Commitments and Contingencies

Cybersecurity Incident

The Company completed its investigation of its April 2023 cybersecurity incident in the fourth quarter of 2023. The Company has tendered claims for certain expenses incurred in connection with this event. The extent to which the Company's insurance will cover such expenses is substantially complete as of June 30, 2024. Insurance recoveries are recorded as a reduction of general and administrative expense. As of June 30, 2024, the Company has recorded \$2,110 as receivable for insurance recoveries. The Company incurred professed and legal fees related to this cyber incident of \$123 and \$302 in the three and six months ended June 30, 2024, respectively, and \$3,616 in the second fiscal quarter of 2023.

13. Income Taxes

The Company's effective tax rate for the three months ended June 30, 2024 and 2023 was 21.4% and (0.7)%, respectively. The Company's effective tax rate for the six months ended June 30, 2024 and 2023 was (74.2)% and (0.6)%, respectively. The Company's effective tax rate was a result of estimated tax losses for the fiscal year to date offset by the increase in the valuation allowance in the net operating loss carryforwards. Tax expense includes current tax expense for estimated state income taxes and noncurrent federal and state taxes related to non-deductibility of goodwill in the future and other book to tax differences.

For the six months ended June 30, 2024, the Company has utilized the discrete effective tax rate method, as allowed by ASC 740-270-30-18, *Income Taxes—Interim Reporting*, to calculate its interim income tax provision. The discrete method is applied when the application of the estimated annual effective tax rate is impractical because it is not possible to reliably estimate the annual effective tax rate. The discrete method treats the year-to-date period as if it was the annual period and determines the income tax expense or benefit on that basis. The Company believes that, at this time, the use of this discrete method is more appropriate than

AvidXchange Holdings, Inc. Notes to the Unaudited Consolidated Financial Statements (in thousands, except share and per share data) the annual effective tax rate method as its full-year forecasted pre-tax income, relative to its year-to-date loss, has the potential to distort its estimated annual effective tax rate.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the unaudited interim financial statements and notes thereto included in this Quarterly Report on Form 10-Q and with our audited financial statements and notes thereto for the year ended December 31, 2023 and the related Management's Discussion and Analysis of Financial Condition and Results of Operations, both of which are contained in our Annual Report on Form 10-K for the year ended December 31, 2023.

Cautionary Note Regarding Forward Looking Statements

The following discussion and other parts of this Quarterly Report contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, (the "Exchange Act"). All statements other than statements of historical facts contained in this Quarterly Report, including statements regarding our future operating results and financial position, our business strategy and plans, market growth, and our objectives for future operations, may constitute forward-looking statements. These statements are often identified by the use of words such as "believe," "may," "will," "estimate," "potential," "continue," "anticipate," "intend," "expect," "could," "would," "project," "plan," "target," and similar expressions or variations. The forward-looking statements in this Quarterly Report are only predictions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, operating results, business strategy, short-term and long-term business operations and objectives. These forward-looking statements speak only as of the date of this Quarterly Report and are subject to a number of risks, uncertainties and assumptions, including those described in Part II, Item 1A under the heading "Risk Factors." The events and circumstances reflected in our forward-looking statements may not be achieved or occur and actual results could differ materially from those projected in the forward-looking statements. Except as required by applicable law, we do not plan to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events, changed circumstances or otherwise.

You should read this Quarterly Report on Form 10-Q, and the documents that we reference in this Quarterly Report on Form 10-Q and have filed with the SEC, with the understanding that our actual future results, performance, and events and circumstances may be materially different from what we expect.

In this Quarterly Report on Form 10-Q, the words "we," "our," "us," "AvidXchange," and "our Company" refer to AvidXchange, Inc. prior to our reorganization, and to AvidXchange Holdings, Inc. and its consolidated subsidiaries following the reorganization, unless the context requires otherwise.

Overview

AvidXchange was founded in 2000 to serve the AP automation needs of the middle market. In 2012, in response to customer demand for more efficient payment methods, we launched the AvidPay Network. Since 2012, we have had substantial growth, both organic and through a series of strategic acquisitions allowing us to expand in the markets that we serve and enter new ones.

Our Business and Revenue Model

We sell our solutions through a hybrid go-to-market strategy that includes direct and indirect channels. Our direct sales force leverages their domain expertise in select verticals and over 270 referral relationships with integrated software providers, financial institutions and other partners to identify and attract buyers that would benefit from our AP software solutions and the AvidPay Network. Our indirect channel includes reseller partners and other strategic partnerships such as Mastercard, through MasterCard's B2B Hub, which includes Fifth Third Bank and Bank of America, and other financial institutions, such as KeyBank, and third-party software providers such as MRI Software, RealPage and Sage Software. Our referral and indirect channel partnerships provide us greater reach across the market to access a variety of buyers.

Our revenues are recurring in nature and are derived from multiple sources, predominantly through software revenue from our buyers and revenue from payments made to their suppliers. The table below represents our revenues disaggregated by type of service performed (in thousands):

Three Months Ended June						0, Six Months Ended June 30,					
Disaggregation of Revenue:	2024			2023	2024			2023			
Software revenue	\$	29,914	\$	27,248	\$	59,602	\$	54,216			
Payment revenue		74,183		63,228		149,385		122,409			
Services revenue		1,035		678		1,743		1,351			
Total revenues	\$	105,132	\$	91,154	\$	210,730	\$	177,976			

Software revenue, payment revenue and services revenue are described below in the section titled "Components of Results of Operations."

Macroeconomic Environment's Impact on Revenue

During the first six months of 2024, we saw the continuing impact of several macroeconomic events on our business and on our buyers and suppliers. These events included, but were not limited to, a higher interest rate environment and heightened uncertainty regarding future rate actions by the Federal Reserve, continuing and sustained inflationary pressure in many sectors, shifting economic sentiments and indecision evidenced, in part, by lingering negative consumer sentiment and the upcoming election cycle.

The near-term and potential longer term impacts of these events, including inflation and an uncertain interest rate environment, on our business and the economy remain unclear. On the one hand, as higher rates have held steady in the current interest rate environment, the interest we earn on funds held for buyers has positively impacted our payment revenue and margin.

On the other hand, we believe that the current macroeconomic environment and the upcoming election cycle has caused and continues to cause certain of our customers to moderate their expenditures and purchasing decisions, particularly discretionary spending, impacting the number of transactions processed across our network. We believe that this same environment has caused certain of our suppliers to select to receive lower cost forms of payment on our network, including check, which has in turn, negatively impacted our payment type mix and our transaction yield and the revenue we earn from interchange fees during the quarter. The near and longer impact of these selections and macroeconomic conditions on the adoption rate of electronic forms of payment on our network remains uncertain. Inflationary pressure also negatively impacts our operating costs by increasing costs incurred by us to operate our business, some of which we may not be able to recoup from our customers.

While the impacts of inflation and increased interest rates are impacting our business in the short term, we may not see these impacts or may see different impacts in the future, for example if and when the Federal Reserve elects to cut interest rates that would impact our interest income, which could lead to difficulty in comparing our current consolidated financial results to our results in future reporting periods.

Key Financial and Business Metrics

We regularly review several financial and business metrics to measure our performance, identify trends affecting our business, prepare financial projections, and make strategic decisions. We believe that these key business metrics provide meaningful supplemental information for management and investors in assessing our historical and future operating performance. The calculation of the key metrics and other measures discussed below may differ from other similarly titled metrics used by other companies, securities analysts or investors.

	Th	ree Months I	ee Months Ended June 30,		Percentage	Six Months E	Percentage		
		2024		2023	Change	2024		2023	Change
Transactions Processed	1	9,730,167		18,819,619	4.8%	39,050,282	_	37,077,315	5.3%
Transaction Yield	\$	5.33	\$	4.84	10.1 % \$	5.40	\$	4.80	12.5 %
Total Payment Volume (in millions)	\$	20,617	\$	18,675	10.4 % \$	6 40,484	\$	36,413	11.2 %

Transactions processed

We believe that transactions processed is an important measure of our business because it is a key indicator of the use by both buyers and suppliers of our solutions and our ability to generate revenue, since a majority of our revenue is generated based on transactions processed. We define transactions processed as the number of invoice transactions and payment transactions, such as invoices, purchase orders, checks, ACH payments and VCCs, processed through our platform during a particular period.

Transaction yield

We believe that transaction yield is an important measure of the value of our solutions to buyers and suppliers as we scale. We define transaction yield as the total revenue during a particular period divided by the total transactions processed during such period.

Total payment volume

We believe total payment volume is an important measure of our AvidPay Network business as it quantifies the demand for our payment services. We define total payment volume as the dollar sum of buyers' AP payments paid to their suppliers through the AvidPay Network during a particular period.

Components of Results of Operations

Revenue

We generate revenue from the following sources: (i) software, (ii) payments, and (iii) services.

Software Revenue

We generate software revenue from our buyers primarily through (i) fees calculated based on the number of invoices and payment transactions processed and (ii) recurring maintenance and SaaS fees. Software revenue is typically billed to and paid by our buyers on a monthly basis. Our software offerings, many of which are built for specific verticals, address the needs of buyers and together they comprise our suite of predominately cloud-based solutions designed to manage invoices and automate the AP function. We generally sign multi-year contracts with buyers and revenue is recognized over the term of the contract. We also generally receive initial upfront implementation fees and software maintenance fees for ongoing support, which are recognized ratably over the term of the applicable support period.

Payment Revenue

We generate revenue from the payments our buyers make to their suppliers through (i) offering electronic payment solutions to suppliers, (ii) fees charged to suppliers from our invoice payment accelerator product, and (iii) interest on funds held for buyers pending disbursement.

Our electronic payment solutions currently include VCC and an enhanced ACH payment product, or AvidPay Direct, which eliminate paper checks and increase the speed of payment to the supplier. AvidPay Direct also provides suppliers with enhanced remittance data allowing the supplier to reconcile the payment and the underlying invoice. VCC revenues result from interchange fees applied to the spend processed and are recorded net of fees and incentives. AvidPay Direct revenue is based on a per transaction fee that we charge to suppliers that generally includes a cap and is based on the spend per payment and is recorded net of incentives.

Our invoice payment accelerator product, Payment Accelerator, provides certain suppliers with the opportunity to better manage cash flows and receive payments even faster by allowing suppliers to receive advance payment on qualifying invoices. Revenues are generated on a per transaction basis for each payment that is advanced. We currently fund the accelerated payment of invoices from our balance sheet.

Interest income represents interest received from buyer deposits held during the payment clearing process. We receive interest on funds held through our contractual relationship with our buyers, which we recognize as payment revenue. The rate we earn on buyer funds is difficult to predict in the short and long term and will continue to be impacted by the Federal Reserve's monetary policy and any adjustments that are made in response to inflation. Due to the elevated levels of inflation in the U.S. economy, and the resulting increases in interest rates, we experienced an increase in revenues generated on funds held during the payment clearing process during 2022, 2023 and 2024. This level of interest income on buyer deposits may not be sustainable in future years or in nearer term periods depending on the Federal Reserve's future actions. The Federal Reserve is expected by many to reduce interest rates in near to mid-term future periods, which would in turn have a negative impact on our payment revenue although the extent to which rates will be reduced, if at all, and the specific timing of the rates cuts remains highly uncertain.

Our media payments business includes customers that are involved in political advertising in the U.S. Revenue from these customers is cyclical as it is connected to U.S. election advertising spend which tends to increase during significant election years, such as mid-term and presidential elections. As 2024 is a presidential election year, we expect an increase in the payments associated with political advertising, laregly in the back half of 2024, compared to 2023 which was not a significant election year.

We utilize service providers to process a substantial portion of our payment revenue that is derived from interchange fees earned on payment transactions processed as VCCs. A large percentage of our revenue is processed by a small number of providers and our revenue is also dependent on the rates we are able to negotiate with these providers. See Note 2 "Summary of Significant Accounting Policies" of our unaudited consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for disclosures regarding this concentration.

Services Revenue

Services revenue includes fees charged to process buyer change in service requests.

Total Revenue

We expect our total revenue to increase year over year due to an increase in the number of transactions processed, and the number of buyers and suppliers using the AvidPay Network, and that payment revenue should comprise a greater proportion of total revenue as the volume of transactions on the AvidPay Network continue to increase.

Cost of Revenues and Operating Expenses

Cost of Revenues

Cost of revenues includes personnel related costs, which include direct compensation, fringe benefits, short- and long-term incentive plans and stock-based compensation expense. Cost of revenues includes teams responsible for buyer and supplier onboarding and setup, invoice processing, payment operations, money movement execution, and customer service. Personnel costs also include internal labor associated with the employees who monitor the performance and reliability of our buyer and

supplier solutions and the underlying delivery infrastructure (i.e., application and data hosting administration, product support and escalations, payment monitoring and settlement functions).

Cost of revenues also includes external expenses that are directly attributed to the processing of invoice and payment transactions. These expenses include the cost of scanning and indexing invoices, printing checks, postage for mailing checks, expenses for processing payments (ACH, check, and wires), bank fees associated with buyer deposits held during the payment clearing process, and other transaction execution costs. Additionally, cost of revenues includes fees paid to third parties for the use of their technology, data hosting services, customer relationship management tools used in the delivery of our services or in support of the delivery infrastructure, and adjustments to the allowance for uncollectible advancements processed through Payment Accelerator. Lastly, cost of revenues includes estimates for treasury losses that occur in treasury operations. Treasury losses include various unrecoverable internal payment processing errors that occur in the ordinary course of business, such as duplicate payments, overpayments, payments to the wrong party and reconciliation errors.

We have elected to exclude amortization expense of capitalized developed software and acquired technology, as well as allocations of fixed asset depreciation expense and facility expenses from cost of revenues.

We expect our cost of revenues as a percentage of revenue to decrease as we continue to realize operational efficiencies and shift more of our transactions to electronic payments.

Sales and Marketing

Sales and marketing consists primarily of costs related to our direct sales force and partner channels that are incurred in the process of setting up go-to-market strategies, generating leads, building brand awareness and acquiring new buyers and suppliers, including efforts to convert suppliers from paper check payments to electronic forms of payments and efforts to enroll them into the Payment Accelerator solution.

Personnel costs include salaries, wages, direct and amortized sales commissions, fringe benefits, short- and long-term incentive plans and stock-based compensation expense. Most of the commissions paid to the direct sales force are incremental based upon invoice and payment volume from the acquisition of a new buyer and are deferred and amortized ratably over an estimated benefit period of five years.

The partner ecosystem consists of reseller, referral and accounting system partners. Compensation paid to referral and accounting system partners in exchange for the referral and marketing efforts of the partner is classified as sales and marketing expense.

In addition, we focus on generating awareness of our platform and products through a variety of sponsorships, user conferences, trade shows, and integrated marketing campaigns. Costs associated with these efforts, including travel expenses, external consulting services, and various technology applications are included in sales and marketing as well.

While we expect to continue to increase marketing activities over the coming periods, we are focused on efficient deployment of these marketing resources, and as a result we expect our sales and marketing expenses to experience modest growth in absolute terms in the near term.

Research and Development

Research and development efforts focus on the development of new products and business intelligence tools or the enhancements of existing products and applications, as well as large scale infrastructure projects that improve the underlying architecture of our technology.

The main contributors of research and development costs are (i) personnel related expenses, including fringe benefits, short- and long-term incentive plans and stock-based compensation expense, and (ii) fees for outsourced professional services. We capitalize certain internal and external development costs that are attributable to new products or new functionality of existing products and amortize such costs to depreciation and amortization on a straight-line basis over an estimated useful life, which is generally three years.

We also incur research and development costs attributable to the use of software tools and technologies required to facilitate our research and development activities. Examples of such costs include fees paid to third parties to host lower technical environments and the associated virtual machine ware fees paid to support agile development efforts, and fees paid for software tools and licenses used in quality control testing and code deployment activities.

We expect our research and development expense to increase in absolute dollars but to decrease as a percentage of revenue over the longer term as we are able to efficiently deploy our development resources against a larger revenue base.

General and Administrative

General and administrative expenses consist primarily of our finance, human resources, legal and compliance, facilities, information technology, administration, and information security organizations. Significant cost contributors are (i) personnel

expenses, including fringe benefits, short- and long-term incentive plans and stock-based compensation expense, and (ii) costs of software applications, including end user computing solutions, and various technology tools utilized by these organizations. Occupancy expenses, which include personnel, rent, maintenance and property tax costs are not allocated to other components of the statements of operations and remain in general and administrative expenses.

While we expect our general and administrative expenses to decrease as a percentage of revenue over the longer term, we expect our general and administrative expenses to increase in absolute dollars over the shorter term as we continue to build out our infrastructure to support our operations and implement additional safeguards and cybersecurity enhancements.

General and administrative expenses include costs incurred from time to time related to events and transactions not directly attributable to operations. For example during 2023, general and administrative expenses include costs incurred in connection with a cybersecurity incident as well as insurance recoveries. Additionally, general and administrative expenses also include restructuring costs incurred in connection with planned reductions of our U.S. workforce. Restructuring costs consist of one-time severance charges to be paid to affected employees.

Impairment and Write-Off of Intangible Assets

Impairment and write-off of intangible assets is the reduction from carrying value to fair value for assets or asset groups whose carrying value is not recoverable and also includes charges determined based on our estimation of the amount of obsolescence of previously capitalized software development costs.

Depreciation and Amortization

Depreciation and amortization expense includes depreciation of property and equipment over the estimated useful life of the applicable asset, as well as amortization of acquired intangibles (i.e., technology, customer list and tradename) with a useful life between 3 and 15 years, and amortization of capitalized software development costs with an estimated benefit of 3 years.

Other Income (Expense)

Other income (expense) consists primarily of interest expense on our bank borrowings and headquarters finance leases, offset by interest income on non-customer corporate funds.

Income Tax Expense (Benefit)

Income tax expense (benefit) consists of federal and state current and deferred income taxes.

Results of Operations

The following table sets forth our results of operations for the periods presented (in thousands, except share and per share data):

	Three Months Ended June 30,					d June 30,		
		2024		2023		2024		2023
Revenues	\$	105,132	\$	91,154	\$	210,730	\$	177,976

Comparison of the Three Months Ended June 30, 2024 and 2023

Revenues

	TI	hree Months	Endeo	d June 30,	I	Period-to-Period Change		
		2024		2023	Α	mount	Percentage	
				(in thou	ısands)			
Revenues	\$	105,132	\$	91,154	\$	13,978	15.3 %	

The increase in revenues was largely comprised of an increase in payment revenue of \$11.0 million, or 17.3%, driven primarily by increased electronic payments on the AvidPay Network due to the addition of new and existing buyer payment transaction volume and an increase in payment yield, that resulted, in part, from increased interest rates over the prior year period, partially offset by continued macroeconomic pressure that we believe is impacting transactions processed and, as a result, our net transaction retention rate. Payment revenue and payment yield were positively impacted by interest on funds held for customers as the rate earned on those funds increased during the period due to the Federal Reserve raising rates in response to the higher than normal level of inflation in the U.S. economy. Payment revenue from interest increased \$2.6 million to \$11.8 million in the second quarter of 2024 from \$9.2 million in the second quarter of 2023. Software revenue increased by \$2.7 million, or 9.8%, primarily driven by increased invoice and payment transaction volume from new and existing customers as well as increases in certain subscription-based revenue.

Cost of revenues (excluding depreciation and								
amortization expense)	\$	30,426	28.9%	\$ 30	0,221	33.2 % \$	6 205	0.7 %
The increase in cost of revenues (evaluding de	nroc	intion and	amortization avaar			primarily to increas	oo in IT infro	atructura conto

The increase in cost of revenues (excluding depreciation and amortization expense) was due primarily to increases in IT infrastructure costs of \$0.3 million and increases in invoice and check processing fees of \$0.7 million, partially offset by costs savings in consulting and contract labor of \$0.6 million as a result of transitioning to new vendors. Additionally, misdirected payments decreased \$0.7 million primarily from increased recoveries, partially offset by an increase in the Payments Accelerator reserve of \$0.5 million.

Operating Expenses

		Three Months End				
	 20	24	20)23		
	 Percentage of			Percentage of	Period-to-Pe	riod Change
	Amount	Revenue	Amount	Revenue	Amount	Percentage
			(in thou	isands)

Research and development	25,008	23.8%	24,740	27.1 %	268	1.1%
General and administrative	22,635	21.5%	27,716	30.4 %	(5,081)	(18.3)%
Depreciation and amortization	9,208	8.8%	8,878	9.7 %	330	3.7 %

Sales and Marketing Expenses

The decrease in sales and marketing expenses was primarily driven by decreases in consulting costs of \$0.2 million and IT infrastructure costs of \$0.1 million, partially offset by an increase in the amortization expense of deferred sales commissions of \$0.2 million.

Research and Development Expenses

Research and development expenses increased primarily due to costs associated with engaging consultants and contractors of \$0.5 million and IT infrastructure costs and other costs of \$0.4 million, including travel, recruiting, and hiring costs. These increases were partially offset by decreases in employee costs of \$0.5 million and an additional decrease of \$0.2 million attributable to an increase in amount capitalized for software development costs.

General and Administrative Expenses

The decrease in general and administrative expense is primarily attributable to the cybersecurity incident that was detected in April 2023. During the second quarter of 2024 we recorded a recovery from cybersecurity insurance of \$2.1 million and we experienced decrease in costs related to cybersecurity incident of \$3.5 million as the prior year quarter incurred a significant amount of expense associated with our initial threat response. An additional decrease of \$1.1 million is attributable to lower credit losses incurred compared to the prior year quarter. These decreases were partially offset by increases in employee costs of \$0.9

million and increases in IT infrastructure costs of \$0.6 million. The increase in employee costs was primarily due to stock-based compensation expense from recently granted RSUs.

We do not expect additional recoveries or significant costs related to the cybersecurity incident will be incurred in future periods.

Depreciation and Amortization

Depreciation and amortization increased in absolute terms primarily due to the amortization of intangible assets associated with capitalized software development costs.

Other Income (Expense)

			Three Months En					
	2024				2023			
		Percentage of			Percentage of		Period-to-Pe	eriod Change
	Amount		Revenue	Amount	Revenue		Amount	Percentage
				(in tl	housands)			
Other Income (Expense)	\$	2,656	2.5 % 3	\$1,84	1 2.0	%\$	815	44.3 %
Other income increased primarily due to an inc	crease	e in interes	t income of \$0.8 m	illion.				

Income Tax Expense

		Three Months End				
	20)24	2	023		
		Percentage of		Percentage of	Period-to-Pe	riod Change
	Amount	Revenue	Amount	Revenue	Amount	Percentage
			(in tho	usands)		
Income tax expense	\$ 119	0.1%		0.1%	+ (-)	(11.9)%

The provision for income taxes relates primarily to state income taxes and noncurrent federal and state taxes related to the non-deductibility of goodwill in the future and other book to tax differences.

For the three months ended June 30, 2024, we have utilized the discrete effective tax rate method, as allowed by ASC 740-270-30-18, *Income Taxes—Interim Reporting*, to calculate our interim income tax provision. The discrete method is applied when the application of the estimated annual effective tax rate is impractical because it is not possible to reliably estimate the annual effective tax rate. The discrete method treats the year-to-date period as if it was the annual period and determines the income tax expense or benefit on that basis. We believe that, at this time, the use of this discrete method is more appropriate than the annual effective tax rate method as our full-year forecasted pre-tax income, relative to our year-to-date loss, has the potential to distort our estimated annual effective tax rate.

Comparison of the Six Months Ended June 30, 2024 and 2023

Revenues

	5	Six Months E	nded	June 30,		Period-to-Pe	riod Change
		2024		2023		Amount	Percentage
				(in thou	sand	ds)	
Revenues	\$	210,730	\$	177,976	\$	32,754	18.4 %
The increase in accordance learned, comparing of the increase in			070.		00/	aludio e a la caluta a a	di di su di su

The increase in revenues was largely comprised of an increase in payment revenue of \$27.0 million, or 22.0%, driven primarily by increased electronic payments on the AvidPay Network due to the addition of new and existing buyer payment transaction volume and an increase in payment yield, that resulted, in part, from increased interest rates over the prior year period, partially offset by continued macroeconomic pressure that we believe is impacting transactions processed and, as a result, our net transaction retention rate. Payment revenue and payment yield were positively impacted by interest on funds held for customers as the rate earned on those funds increased during the period due to the Federal Reserve raising rates in response to the higher than normal level of inflation in the U.S. economy. Payment revenue from interest increased \$8.6 million to \$24.9 million in the first half of 2024 from \$16.3 million in the first half of 2023. Software revenue increased by \$5.4 million, or 9.9%, primarily driven by increased invoice and payment transaction volume from new and existing customers as well as increases in certain subscription-based revenue.

Cost of Revenues

	20	024	20	023		
		Percentage		Percentage	Period-to-P	eriod Change
	Amount	of Revenue	Amount	of Revenue	Amount	Percentage
			(in thou	ısands)		
Cost of revenues (excluding depreciation and amortization expense)	\$ 60,759	28.8%	\$ 59,694	33.5 %	\$ 1,065	1.8 %

The increase in cost of revenues (excluding depreciation and amortization expense) was due primarily to increases in invoice and check processing fees of \$1.5 million and increases in IT infrastructure costs of \$0.8 million, partially offset by costs savings in consulting and contract labor of \$1.5 million as a result of transitioning to new vendors. Additionally, Payments Accelerator reserve increased \$0.6 million, partially offset by decreases in misdirected payments of \$0.4 million primarily from increased recoveries.

Operating Expenses

	20)24	20)23			
		Percentage		Percentage	Period-to-Pe	-Period Change	
	Amount	of Revenue	Amount	of Revenue	Amount	Percentage	
			(in thou	ısands)			
Sales and marketing	\$ 39,697	18.8%	\$ 40,211	22.6 %	\$ (514)	(1.3)%	
Research and development	50,912	24.2%	47,862	26.9%	3,050	6.4 %	
General and administrative	46,895	22.3 %	50,343	28.3 %	(3,448)	(6.8)%	
Impairment and write-off of intangible assets	162	0.1%	-	0.0%	162	100.0 %	
Depreciation and amortization	18,515	8.8%	17,464	9.8%	1,051	6.0%	

Sales and Marketing Expenses

The decrease in sales and marketing expenses was primarily driven by decreases in consulting costs of \$0.6 million and travel costs of \$0.2 million, partially offset by an increase in amortization expense of deferred sales commissions of \$0.3 million.

Research and Development Expenses

Research and development expenses increased primarily due to employee costs of \$2.7 million including an increase in stock based compensation of \$1.4 million and IT infrastructure costs and other costs of \$0.6 million, including travel, recruiting, and hiring costs. These investments in our platform are intended to increase the quality, reliability and efficiency of our technology. These increases were partially offset by decreases of \$0.4 million is attributable to an increase in amount capitalized for software development costs.

General and Administrative Expenses

The decrease in general and administrative expense is primarily attributable to the cybersecurity incident that was detected in April 2023. During the second quarter of 2024 we recorded a recovery from cybersecurity insurance of \$2.1 million and we experienced decrease in costs related to cybersecurity incident of \$3.3 million as the prior year second quarter incurred a significant amount of expense associated with our initial threat response. An additional decrease of \$1.1 million is attributable to lower credit losses incurred compared to the prior year quarter. These decreases were partially offset by increases in employee costs of \$0.9 million and increases in IT infrastructure costs of \$1.1 million. The increase in employee costs was primarily due to stock-based compensation expense from recently granted RSUs. Additionally, we incurred \$1.2 million in non-reoccurring restructuring costs in the first half of 2024.

We do not expect additional recoveries or significant costs related to the cybersecurity incident will be incurred in future periods.

Impairment and Write-off of Intangible Assets

The impairment and write-off of intangible assets during the six months ended June 30, 2024 relates to internally developed software projects.

Depreciation and Amortization

Depreciation and amortization increased in absolute terms primarily due to the amortization of intangible assets associated with capitalized software development costs.

		Six Months En				
		2024	2	023		
		Percentage		Percentage	Period-to-P	eriod Change
	Amount	t of Revenue	Amount	of Revenue	Amount	Percentage
			(in tho	usands)

				(in th	ousands)			
Income tax (benefit) expense	\$	244	0.1%	\$ 20	5 0.1%	6\$ 39	19.0 %	

The provision for income taxes relates primarily to state income taxes and noncurrent federal and state taxes related to the non-deductibility of goodwill in the future and other book to tax differences.

For the six months ended June 30, 2024, we have utilized the discrete effective tax rate method, as allowed by ASC 740-270-30-18, *Income Taxes—Interim Reporting*, to calculate our interim income tax provision. The discrete method is applied when the application of the estimated annual effective tax rate is impractical because it is not possible to reliably estimate the annual effective tax rate. The discrete method treats the year-to-date period as if it was the annual period and determines the income tax expense or benefit on that basis. We believe that, at this time, the use of this discrete method is more appropriate than the annual effective tax rate method as our full-year forecasted pre-tax income, relative to our year-to-date loss, has the potential to distort our estimated annual effective tax rate.

Liquidity and Capital Resources

Prior to the second quarter of 2024, we did not historically generate positive cash flow through our operations. We have historically financed our operations and capital expenditures primarily through sales of common and preferred stock, through borrowings under our credit facilities, as described below, and through our IPO that was completed in October 2021, which resulted in net proceeds of \$621.4 million, including the exercise of the overallotment option and after deducting underwriting discounts and commissions of \$40.4 million and offering expenses of approximately \$11.8 million. As of June 30, 2024, our principal sources of liquidity are our unrestricted cash and cash equivalents of \$375.2 million, marketable securities of \$89.9 million, and funds available under our term loan and revolving credit facilities, which we collectively refer to as the 2022 Credit Agreement, which we entered into in December 2022. As of June 30, 2024, our unused committed capacity under the 2022 Credit Agreement was \$30.0 million comprised of a revolving commitment.

We believe that our unrestricted cash, cash equivalents, marketable securities, and funds available under our 2022 Credit Agreement will be sufficient to meet our working capital requirements for at least the next twelve months. To the extent existing cash, marketable securities, cash from operations, and amounts available for borrowing under the 2022 Credit Agreement are insufficient to fund future activities, we may need to raise additional capital. In the future, we may attempt to raise additional capital through the sale of equity securities or through equity-linked or debt financing arrangements. If we raise additional capital by issuing equity or equity-linked securities, the ownership of our existing stockholders will be diluted. If we raise additional capital by the incurrence of additional indebtedness, we may be subject to increased fixed payment obligations and could also be subject to additional restrictive covenants, such as limitations on our ability to incur additional debt, and other operating restrictions that could adversely impact our ability to conduct our business. Our ability to raise additional debt may be limited by applicable regulatory requirements as a licensed money transmitter that require us to meet certain net worth requirements. Any future indebtedness we incur may result in terms that could adversely affect our ability to achieve our business objectives.

Cash Flows

Below is a summary of our consolidated cash flows:

		Six Months Ended June 30,				
Selected Cash Flow Data:		2024		2023		
		(in thousands)				
Net cash (used in) provided by:						
Operating activities	\$	18,928	\$	(16,646)		
Investing activities		(56,279)		3,504		
Financing activities		(379,651)		(94,206)		
Net decrease in cash and cash equivalents, and restricted funds held for customers	\$	(417,002)	\$	(107,348)		

Net Cash Used in Operating Activities

Our primary source of cash provided by our operating activities is from our software and payment revenue. Our primary uses of cash in our operating activities include payments for employee salary and related costs, payments to third party service providers to execute our payment transactions, sales and marketing costs, and other general corporate expenditures.

Net cash provided by operating activities improved to \$18.9 million during the six months ended June 30, 2024 from \$16.6 million used in operating activities during the six months ended June 30, 2023 due primarily to an increase in revenue and an improved net loss offset by changes in working capital, primarily due to variations in timing of payment of accrued expenses.

Net Cash (Used in) Provided by Investing Activities

Cash flows related to our investing activities consist primarily of the maturity and purchases of marketable securities, purchases of property and equipment, purchases of intangible assets, capitalization of internal-use software, and supplier advances related to our Payment Accelerator product.

Net cash used in investing activities increased to \$56.3 million during the six months ended June 30, 2024 compared to \$3.5 million provided by investing activities during the six months ended June 30, 2023, primarily driven by differences in the timing of purchases and maturities in our portfolio of held-to-maturity marketable securities.

Net Cash Used in Financing Activities

Cash flows related to our financing activities consist primarily of changes in restricted buyer fund deposits related to buyer payment transactions, exercise of stock options, principal payments on financing leases, and borrowings and repayments of long-term debt.

Net cash used in financing activities was \$379.7 million during the six months ended June 30, 2024 compared to \$94.2 million during the six months ended June 30, 2023, due primarily to variations in the inflows and outflows from payment service obligations of our customers.

Outstanding Debt

Below is a summary of our outstanding debt (in thousands):

	As of June 30, 2024			As of December 31, 2023	
Term loan facility	\$	62,563	\$	63,375	
Promissory note payable for land acquisition		13,900		13,900	
Total principal due		76,463		77,275	
Current portion of term loan and promissory notes		(6,425)		(6,425)	
Unamortized portion of debt issuance costs		(954)		(1,090)	
Long-term debt	\$	69,084	\$	69,760	

Credit Facilities

On December 29, 2022, we entered into a credit agreement to replace our previous credit facility. As of June 30, 2024, the aggregate available borrowing capacity under this agreement was \$30.0 million.

We were in compliance with our financial covenants as of June 30, 2024. Refer to Note 9 of our unaudited consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for additional details about our credit facilities.

Land Promissory Notes

We have promissory notes in connection with land and improvements adjacent to our Charlotte, North Carolina headquarters campus. Refer to Note 9 of our unaudited consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for information on our promissory notes.

Issuances of Common Stock

During the six months ended June 30, 2024, we issued shares of common stock under our existing stock plans. Refer to our unaudited consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for details.

Payment Obligations

We process payments for our customers. As part of our payment product offering we have recorded payment service obligations in our consolidated balance sheets of \$1,193.5 million as of June 30, 2024 and an offsetting asset of restricted funds held for customers. This balance is short-term in nature and represents our obligation to pay our customers' suppliers as directed by our customers.

We historically transmitted buyer customer funds using a legacy model pursuant to which buyer customer funds were held in trust accounts that were maintained and operated by a trustee pending distribution to suppliers in accordance with instructions provided through our platform. After buyers' funds were deposited in a trust account, we initiated payment through external payment networks whereby the buyers' funds were distributed from the trust to the appropriate supplier. We are not the trustee or beneficiary of the trusts which hold these buyer deposits, accordingly, we do not record these assets and offsetting liabilities on our consolidated balance sheets. We have largely transitioned away from the trust model although certain banks that resell our products and services continue to leverage a similar structure. We contractually earn interest on funds held for certain buyers. The amount of Company and bank customer funds held in all trust-related and similar accounts was approximately \$12.5 million and \$6.3 million at June 30, 2024 and December 31, 2023, respectively.

Contractual Obligations

There were no material changes in our contractual obligations and commitments during the six months ended June 30, 2024 from the contractual obligations and commitments disclosed in our Annual Report on Form 10-K for the year ended December 31, 2023. See Note 8 of the notes to our unaudited consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for additional information regarding contractual obligations and commitments.

Critical Accounting Policies and Estimates

Our consolidated financial statements have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported revenue generated, and reported expenses incurred during the reporting periods. Our estimates are based on our historical experience and on various other factors that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

There have been no material changes to our critical accounting policies as compared to the critical accounting policies and significant judgments and estimates disclosed in our Annual Report on Form 10-K for the year ended December 31, 2023 as filed with the SEC on February 29, 2024.

Recent Accounting Pronouncements

See Note 2 to our unaudited consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for recently adopted accounting pronouncements and recently issued accounting pronouncements not yet adopted as of June 30, 2024.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

Our overall investment portfolio is comprised of (i) our operating cash and (ii) buyer funds. Our operating cash includes cash received from revenues generated, the sale of common and preferred stock and increased borrowings. Buyer funds are funds that have been collected from buyers, but not yet remitted to the applicable supplier. The funds are held in either company-owned accounts, which are subject to applicable state money transmitter laws, or in trust-related accounts. We are generally entitled to retain any interest earned on the investment of buyer funds as specified by our contractual arrangements with our buyers.

Our operating cash may be invested in accordance with our cash investment policy. Under that policy, we invest with the objective of preserving capital while optimizing yield. Permissible investments include U.S. Treasury instruments, U.S. Government Agency securities, Government-Sponsored Enterprise securities, commercial paper, certificates of deposit, and money market funds. As of June 30, 2024, we held marketable securities with an amortized cost basis of \$89.9 million and money market funds with an aggregate value of \$59.5 million. The remaining amount of operating cash was held in interest-bearing demand deposit accounts.

Our buyer funds assets are invested with safety of principal, liquidity, and diversification as the primary objectives. Consistent with these objectives, we also seek to maximize interest income and to minimize the volatility of interest income with emphasis on liquidity. Pursuant to our investment policy and subject to applicable law, buyer funds may be invested in U.S. Treasury securities,

U.S. Government Agency securities, or other cash equivalents, including certificates of deposit and time deposits. As of June 30, 2024, all buyer funds have been invested in interest-bearing demand deposit accounts.

We are exposed to interest-rate risk relating to our investment portfolio, which consists principally of interest-bearing demand deposit accounts as well as investments made in accordance with our cash investment policy. We recognize interest earned from buyer funds assets as revenue. We generally do not pay interest to buyers. Factors that influence the rate of interest we earn include the short-term market interest rate environment and the weighting of balances by security type. The annualized interest rate earned on our investment of operating cash and funds held for buyers increased to 5.03% during the first six months of fiscal year 2024 from 4.39% during fiscal year 2023. Based on current investment practices, an increase in the Federal Funds interest rate of 100 basis points would have changed our interest income in the first six months of fiscal year 2024 from our investment of operating cash by approximately \$2.0 million and our interest on buyer funds assets by approximately \$5.3 million based upon the average balances for the first six months of fiscal year 2024 of \$461.5 million in operating cash investments and \$999.6 million in buyer funds investments, respectively. In addition to interest rate risks, we also have exposure to risks associated with changes in laws and regulations that may affect buyer fund balances. For example, a change in regulations that restricts the permissible investment alternatives for buyer funds may reduce our interest earned revenue.

We are also exposed to interest-rate risk relating to existing variable rate bank borrowings. As of June 30, 2024 and December 31, 2023, we had outstanding borrowings on variable rate debt of \$62.6 million and \$63.4 million, respectively. A 100 basis points increase in the variable rate would have resulted in incremental interest expense of \$0.3 million during the six months ended June 30, 2024.

Our interest-rate risk will continue to be impacted by the Federal Reserve's monetary policy and response to the higher than normal level of inflation in the U.S. economy.

Credit Risk

We may be exposed to credit risk in connection with our investments, as our cash on deposit, including buyer funds, regularly exceed Federal Deposit Insurance Company ("FDIC") limits. We limit credit risk by diversifying our portfolio, including a requirement that no more than 5% of invested funds may be held in the issues of a single corporation. Additionally, absent certain limited exceptions, the minimum credit quality of any fixed income investment shall be not less than an '(A-) or (A3)' rating equivalent from any single rating services based on ratings by any of Standard and Poor's Ratings Services, Moody's Investors Service, or Fitch Investor Services. The maximum maturity of any security in the portfolio shall not exceed 24 months. The weighted average maturity of the portfolio shall not exceed 12 months. In addition, maximum maturities of individual securities are further limited by the security type and cash segment of the investment. We are also exposed to credit risk related to the timing of payments made from buyer funds collected. We typically remit buyer funds to our buyers' suppliers in advance of having good or confirmed funds collected from our buyers. Our buyers generally have three days to dispute transactions and if we remit funds in advance of receiving confirmation that no dispute was initiated by our buyer, then we could suffer a credit loss. We mitigate this credit exposure by leveraging our data assets to make credit underwriting decisions about whether to accelerate disbursements, managing exposure limits, and various controls in our operating systems.

There can be no assurance that our deposits in excess of the FDIC or other comparable insurance limits will be backstopped by the U.S. government, or that any bank or financial institution with which we do business will be able to obtain needed liquidity from other banks, government institutions or by acquisition in the event of a failure or liquidity crisis. While we do not currently maintain private insurance to mitigate this risk, we seek to mitigate this risk by monitoring financial institutions that we conduct business with and endeavoring to maintain our cash balances at large well-capitalized financial institutions.

We are also exposed to risks associated with our Payment Accelerator product, in which our supplier customers can accelerate the receipt of payment for outstanding invoices before our buyers initiate the transfer of funds. If those invoices are not approved or the buyer does not transfer the requisite funds then we are exposed to the risk of not being able to recoup our advances to the supplier. We mitigate this risk through data analytics to determine which invoices are available and appropriate for advance payment.

Liquidity Risk

As part of our buyer funds investment strategy, we use the daily collection of funds from our buyers to satisfy other unrelated buyer funds obligations. We minimize the risk of not having funds collected from a buyer available at the time the buyer's obligation becomes due by collecting the buyer's funds in advance of the timing of payment of the buyer's obligation. As a result of this practice, we have consistently maintained the required level of buyer funds assets to satisfy all of our obligations.

Concentration Risk

A substantial portion of our revenue is derived from interchange fees earned on payment transactions processed from VCC service providers. Prior to 2022, our interchange fees were processed primarily through a single provider. To mitigate this concentration risk, we have expanded the number of processor suppliers. Revenue from two of these suppliers was greater than

10% of our total revenue, individually. Refer to Note 2 of our consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for additional information regarding this concentration.

Future regulation or changes by the payment networks could have a substantial impact on our revenue from VCC transactions. If interchange rates decline, whether due to actions by the payment networks, merchant/suppliers availing themselves of lower rates, or future regulation, our total operating revenues, operating results, prospects for future growth and overall business could be materially affected.

We are also exposed to concentration risk associated with buyer funds that we hold in Company-owned accounts, which are subject to applicable state money transmitter laws, and in trust accounts. As of June 30, 2024, all buyer funds have been invested in interest-bearing demand deposit accounts. The majority of these demand accounts are maintained at one institution which is a full-service, FDIC-insured national bank supervised by the Office of the Comptroller of the Currency and is a subsidiary of a bank holding company subject to regulation, supervision, and examination by the Federal Reserve. As indicated above, while we do not currently maintain private insurance to mitigate this risk, we seek to mitigate this risk by monitoring financial institutions that we conduct business with and endeavoring to maintain our cash balances at large well-capitalized financial institutions.

ITEM 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated, as of the end of the period covered by this Quarterly Report on Form 10-Q, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Disclosure controls and procedures are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to management, including the principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective, as of June 30, 2024, to reasonably ensure that information required to be disclosed and filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified, and that management will be timely alerted to material information required to be included in our periodic reports filed with the Securities and Exchange Commission.

(b) Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the most recent fiscal quarter ended June 30, 2024, which have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, we have been and will continue to be subject to legal proceedings and claims. We are not presently a party to any legal proceedings that, if determined adversely to us, would individually or taken together have a material adverse effect on our business, results of operations, financial condition, or cash flows. Defending such proceedings is costly and can impose a significant burden on management and employees. The results of any current or future litigation cannot be predicted with certainty, and regardless of the outcome, litigation can have an adverse impact on us because of defense and settlement costs, diversion of management resources, and other factors.

Item 1A. Risk Factors.

There have been no material changes to the risk factors associated with our business previously disclosed in "Item 1A. Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2023.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(a) Unregistered Sales of Equity Securities

None.

(b) Use of Proceeds

Use of Proceeds from Initial Public Offering of Common Stock

On October 12, 2021, our Registration Statement on Form S-1, as amended (Reg. No. 333-259632), was declared effective in connection with the IPO of our common stock, pursuant to which we issued and sold 26,400,000 shares of common stock, par

value \$0.001 per share. The price per share to the public was \$25.00. Gross proceeds from the IPO were \$660.0 million and net proceeds, after deducting (i) underwriters' discounts and commissions and (ii) offering expenses of approximately \$12.1 million, were approximately \$608.3 million. Following the sale of these shares, the offering terminated. Shares of our common stock began trading on the Nasdaq Global Select Market on October 13, 2021.

On October 15, 2021, we used \$169.0 million of the net proceeds to redeem the shares of redeemable preferred stock issuable upon conversion of our senior preferred stock.

On November 15, 2021, the underwriters notified us of the partial exercise of the overallotment option. Upon closing on November 18, 2021, we issued 544,928 shares of common stock at the offering price of \$25.00 per share and received net proceeds of \$12.8 million after deducting underwriters' discounts and commissions.

There have been no material changes in the planned use of proceeds from the IPO from those described in our Final Prospectus. We have invested a portion of the funds received in short-term, interest bearing, investment-grade securities.

Issuer Repurchases of Equity Securities None.

Item 3. Defaults Upon Senior Securities. Not applicable.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Date: August 2, 2024

AvidXchange Holdings, Inc.

By: /s/ Joel Wilhite

Joel Wilhite Chief Financial Officer (Authorized Signatory and Principal Financial and Accounting Officer)

Exhibit 31.1

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER PURSUANT TO EXCHANGE ACT RULE 13A-14(A)/15D-14(A) AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Michael Praeger, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of AvidXchange Holdings, Inc. (the registrant);

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a–15(e) and 15d–15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

- (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
- (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
- (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
- (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

- (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
